Art Workshop for Children is not just another book of straightforward art projects. The book's unique child-led approach provides a framework for cultivating creative thinking and encourages the wonder that comes when children are allowed to freely explore the creative process and their materials. As children work through these open-ended workshops, adults are guided on how to be facilitators who provide questions, encourage deep thinking, and help spark an excitement for discovery. Children explore basic materials and workshops that use minimal supplies, and then gradually add new materials to fill the art cabinets as well as new skills and more complex workshops. Most workshops are suitable to preschool-aged children, and each contains ideas for explorations and new twists to engage older or more experienced artists. Interspersed throughout are sidebar essays that introduce perspectives on mess-making, imperfection, the role of adult, collaborative art, and thoughts on the Reggio Emilia method, a self-guided teaching philosophy. These pieces underscore the value of art-making with children, and support the parent/teacher/care-giver on how to successfully lead, question, and navigate their children through the workshops to result in the fullest experiences.

In Wonder Art Workshop, educator and educational development expert Sally Haughey shares her approach to hands-on, play-based learning with parents, teachers, and other facilitators, offering 25 activities that let your child take the lead in developing their own sense of intrinsic motivation to imagine, experiment, and discover. The author's wonder-based approach reflects and synthesizes several child-centered educational movements, including Reggio Emilia, Waldorf, and Montessori. Become a catalyst for cultivating your child's curious mind through these steps and activities, which start with art and apply to other subjects, including science and literacy: Take stock for your wonder journey with helpful guidance on collecting materials, preparing a space, and nurturing the process while allowing children to make independent choices. Harness curiosity through a collection of sensory-based activities that use a variety of loose parts and other creative materials for open-ended play. Encourage experimentation by unleashing
