## **Description: Chinese American masculinities**

COPY. This book is one of the first scholarly analyses of the current social constructions of Chinese American masculinities. Arguing that many of these notions are limited to stereotypes, Chan goes beyond this to present a more complex understanding of the topic. Incorporating historical references, literary analysis and sociological models to describe the construct a variety of masculine identities, Chan also examines popular novels (Fu Manchu and Charlie Chan), films (Bruce Lee), comic ...

Abstract. Asian American men have distinct histories and experiences within the context of masculinity. In considering gender role conflict, a concept that examines the negative impact of prescribed gender roles on both men and women (O'Neil, Helms, Gable, David, & Wrightsman, 1986), it is important to note that Asian American men are situated within the United States' White hegemonic masculinity while also negotiating their racialized minority status.
