A unique exploration of how dental health connects to holistic health, with a 40-day meal plan and long-lasting dietary guidelines that are easily integrable into everyday life Throughout the years, dental health has often been characterized as a reflection of our overall health, where bad oral health results from issues with other parts of our body. But what if we flipped the paradigm? What if we thought about dental health as the foundation for our physical health as a whole? Dr. Steven Lin, an experienced dentist and the world's first dental nutritionist, has analyzed our ancestral traditions, epigenetics, gut health, and the microbiome in order to develop food-based principles for a literal top-down holistic health approach. Merging dental and nutritional science, Dr. Lin lays out the dietary program that can help ensure you won't need dental fillings or cholesterol medications —and give you the resources to raise kids who develop naturally straight teeth. With our mouth as the gatekeeper of our gut, keeping our oral microbiome balanced will create a healthy body through a healthy mouth. Dr. Lin arms you with a 40-day meal plan, complete with the Dental Diet food pyramid, exercises for the mouth, recipes, and cooking techniques to help you easily and successfully implement his techniques into your everyday life. The tools to improve overall wellness levels and reverse disease are closer than we think—in our markets, in our pantries, and, most frequently, in our mouths.

"Is the modern day dentist the way of the future? OR is the common dental checkup just a stepping stone in the evolution of our understanding of tooth decay and what can be done about it? The truth is, relying on modern dentistry techniques is a very old, outdated strategy to tackle this universally felt problem. Complicated surgical treatments and incredibly expensive procedures can now become a thing of the past. The NEW way is the natural way. By addressing what we eat and by using other holistic aids, we can now remineralize our teeth from the comfort of our own homes. There's no longer any justifiable reason to fear the dentist, YOU have the power and ability to take control of your dental health and realize that such an important facet of your life is treatable by you when armed with the right knowledge."--Cover p.
