Palliative care is a rapidly growing area within health care and one in which there are many ethical dilemmas. Chronically and terminally ill patients increasingly wish to take control of their own lives and deaths, resources are scarce and technology has created controversial life-prolonging treatment.

Palliative Care Ethics: a Good Companion Fiona Randall and R S Downie, United States, Oxford University Press, 1996, 195 pages, £ 16.95pb, £ 30hb. Written jointly by a consultant in palliative medicine and a professor of moral philosophy, this book represents a profound treatise on many aspects of palliative care. The authors, modestly, call it a companion ...

~~Palliative Care Ethics: Companion~~

In this case, the subtitle, A companion for all specialties, is not only relevant but incredibly important. Without it, the book might easily be ignored by those who neither work nor have a special interest in palliative care, and more particularly in the care of dying patients. The target readership for this book is very much wider than that.
