Written by parents who have been through the US special education system, this book cuts through the jargon to provide other parents with a no-nonsense road map full of valuable first-hand insights and tried-and-tested advice. The authors clearly describe: · the special education process, including the school hierarchies parents are likely to encounter and etiquette to be aware of when dealing with school personnel · the information parents should expect to see in school evaluations and Individualized Education Programs (IEPs), and what to do when this information is missing or insufficient · problems parents may encounter when the needs of the school conflict with the needs of a child, including how to deal with such situations and when to seek legal advice · the importance of organizing special education documentation and establishing a 'paper trail', and how to begin this process · why transition planning is so important, and transition services parents may want to consider for their child. Demonstrating that parents really do have the power to make special education work for their child, this empowering guide is essential reading for parents of children with disabilities who are new to the special education system in the US, as well as those who feel frustrated with the system.

Over six million American families are involved in special education, and the numbers are growing. The complex web of laws, regulations, personalities and stresses, combined with anxiety over raising a child with a disability, have made special education advocacy an impenetrable maze to many parents. This book presents the complexities of the process in a simple-to-understand way and offers practical tips, checklists and strategies on how to make the system work to insure the educational success of all children.

As a parent and advocate, you are the only constant team member. Other IEP team members- teachers, therapists, and administrators-revolve and eventually fade. You need to make your unique viewpoint as meaningful as possible. However, the laws governing special education are complex; full of confusing terms, rigid timelines, and complicated decisions. This guide translates the legalese and organizes the material, making it user friendly. As you learn more about these laws, you will gain a sense of equality and confidence that will make you a more effective and proactive advocate for your child. Wherever you are on the special education journey, this guide will help you learn: -The school district's responsibilities, -Your child's rights, -Your rights as the parent of a special education student, -Techniques to help you come to each IEP meeting informed and prepared, and-How to be a proactive (rather than reactive) advocate. Using charts, graphs, examples, and other resources, this guide lays out the referral, eligibility, IEP, student discipline, ITP, and dispute resolution processes with an emphasis on maximizing the

parents' role as an advocate for the best outcomes for their child. Citations to relevant law are included throughout the manual.

Disability law can be complex and intimidating, so how can concerned parents use it to ensure their child with a disability receives the appropriate education they are legally entitled to? A Guide to Special Education Advocacy gives strategies for advocating for better provision of special education in schools. Despite the many services and accommodations that have been made for students with disabilities, such as the use of Braille or providing specialized education in a regular or special classroom, many children with disabilities do not get the services they need and are not placed in appropriate programs or settings. Because of this, the perception of disability often remains unchanged. Matthew Cohen's insightful manual gives a practical vision of how a parent or a professional can become an advocate to achieve a more inclusive and rewarding education for the child with a disability. This book will provide parents, people with disabilities, professionals and clinicians thinking about special education advocacy with an overview of current disability law and how it works, identifying practical ways for building positive and effective relationships with schools.

This is the newly expanded and updated edition of the compassionate and practical guide for parents of children with visual impairment. Written by a team of professionals and parent-experts, the 2nd edition offers families up-to-date information and reassuring advice on everything from diagnosis to educational technology, daily living to mobility, and emotional coping to literacy. Edited by one of the leading experts in the field of visual impairment, CHILDREN WITH VISUAL IMPAIRMENTS is the most comprehensive reference of its kind. The 2nd edition includes new information on the "Core Curriculum" -- recommended areas of learning for children and adults who are blind or visually impaired -- more information on technology, and updated information on legal rights, federal benefits, and special education rights. New chapter authors provide a fresh perspective on family life, real-life anecdotes, and coping strategies. The resource section, reading list and parents statements (parent insights included at the end of each chapter) are all updated. Target Audience: Parents and teachers of children with visual impairments -- i.e. children with a loss of vision that makes it difficult or impossible to do daily living tasks without specialised adaptations: includes children who have low vision, are legally blind, blind, or have visual field losses.
