The Flip Mino and MinoHD are the best-selling family of affordable and simple-to-use digital camcorders in the U.S. Since its launch in 2007, Flip Video has sold over 1.5 million camcorders. The Flip MinoHD is the world's smallest high definition camcorder at just over three oz. The MinoHD records up to 60 minutes of HD video and comes along with FlipShare software --this software allows Flip owners to plug the camcorder's signature flip-out USB arm into any computer for easy drag-and-drop video organizing, editing and sharing on YouTube, MySpace, AOL Video or via email. Loaded with plenty of tips and techniques, the Flip mino Pocket Guide shows readers how to effectively capture video and organize and edit the footage for optimal playback. All Flip models are covered including Flip Mino, Flip MinoHD, Flip Ultra, and Flip Video.

Our sources of information, and the practices we use to find it, are in a period of rapid flux. Libraries must respond by selecting, acquiring, and making accessible a host of new information resources, developing innovative services, and building different types of spaces to support changing user behaviors and patterns of learning. A Field Guide to the Information Commons describes an emerging library service model that embodies all three spheres of response: new information resources, collaborative service programs, and redesigned staff and user spaces. Technology has enabled new forms of information-seeking behavior and scholarship, causing a renovation of libraries that revisits the idea of the "commons"-a public place that is free to be used by everyone. A Field Guide to the Information Commons describes the emergence, growth, and adoption of the concept of the information commons in libraries. This book includes a variety of contributed articles, and descriptive, structured entries for various information commons in libraries across the country and around the world.
