New to the 9th Edition are mini-interviews with experts for each of the theories, who address these questions: (1) What attracted you to this particular theoretical orientation? How does the theory fit for the person you are? (2) What are some key concepts (and techniques) of this theory that are most applicable to the practice of group counseling? (3) How does this theory have particular relevance for addressing diversity and social justice issues in group work?

Incorporating the thinking, feeling, and behaving dimensions of human experience, the tenth edition of Corey's best-selling book helps students compare and contrast the therapeutic models expressed in counseling theories. Corey introduces students to the major theories (psychoanalytic, Adlerian, existential, person-centered, Gestalt, reality, behavior, cognitive-behavior, family systems, feminist, postmodern, and integrative approaches) and demonstrates how each theory can be applied to two cases (Stan and Gwen). With his trademark style, he shows students how to apply those theories in practice, and helps them learn to integrate the theories into an individualized counseling style. More than a recipe book of techniques that group leaders can pull out at the right time, this book encourages readers to use techniques sensitively and creatively in their own groups, and to go one step further to invent their own techniques. The authors draw on their combined experiences as teachers, as consultants to mental-health professionals, and as private practitioners to provide a realistic approach to group work. Emphasizing that techniques are means, not ends, the book is designed to enhance the group leader's ability to generate a therapeutic and human rapport between leader and members. Useful as a supplemental text in advanced theories and practicum courses, this fourth edition discusses the key concepts and techniques from many contemporary theories and how to develop an integrative approach to the counseling process to better meet individual client needs. Dr. Corey introduces the techniques that he draws from in his own integrative approach to counseling using a wide variety of case examples with diverse clients. Topics covered include assessing presenting issues; developing a productive working alliance; establishing therapeutic goals; understanding and addressing diversity; working with resistant clients; using evidence-based practice in cognitive, emotive, and behavioral work with clients; dealing with transference and countertransference; and incorporating trends in integrative therapies. To encourage active learning, reflective exercises throughout the text provide readers with opportunities to put themselves in the role of therapist and client. "No one knows more about theory-based counseling than Gerald Corey, who has spent the past 50+ years helping us to gain real insight into multiple models. In this book, Corey takes readers from forming a working alliance with clients through the processes for setting and achieving goals. His skill at and understanding of the termination processes is worth the entire book. Not only will The Art of Integrative Counseling be the core text for counseling process and skills courses, it will provide the foundation for effective, truly integrated counseling throughout one's career." —James Robert Bitter, EDD, East Tennessee State University "Gerald Corey's fourth edition of The Art of Integrative Counseling provides important concepts to consider when developing an integrative approach to working with clients. For beginning counselors, it demonstrates how one can be integrative whether one is behaviorally, cognitively, or affectively oriented. For more advanced counselors, it reminds them of the wealth of information that all theories offer and how techniques or theories can be synthesized into a more effective approach. Whether you are a new counselor trying to figure out how to integrate the many theories you learned about, or a seasoned professional seeking new ways of working with clients, this book has something for you." —Edward Neukrug, EDD, Old Dominion University \*Requests for digital versions from the ACA can be found on wiley.com. \*To request print copies, please visit the ACA website here. \*Reproduction requests for material from books published by ACA should be directed to [permissions@cs.wiley.com](mailto:permissions@cs.wiley.com)
