Zero to Maker [Book] - O'Reilly Media

I just got back from New York City where Eric Stackpole and I spent the weekend exhibiting and talking about OpenROV at the Open Hardware Summit and World Maker Faire. Although it wasn't quite as big as Maker Faire Bay Area, it was an unbelievable gathering of makers and creators of all shapes and sizes. On a scale of 1 to Awesome, it was a perfect score.

Information technology has improved rapidly, but there is no reason why progress should be limited to computers or Silicon Valley. Progress can be achieved in any industry or area of business. It comes from the most important skill that every leader must master: learning to think for yourself. Doing what someone else already knows how to do takes the world from 1 to n, adding more of something familiar. But when you
